

## **Safway Services Canada, Inc.**

### **Mission**

To provide our customers with the highest quality, safest, and best designed products in the worker access industry.

To support our customers with expert, reliable, and cost-effective engineering, erection-dismantling services,

And to offer these products and services through a nationwide network of Safway branches and employees.

To accomplish our mission, we commit our company and our employees to the highest standards of performance, dedication and integrity.

### **About Us**

Safway® scaffold solutions have been used by over 50,000 customers – ranging from Fortune 500 companies to local subcontractors. With one of the largest in-house engineering departments in the industry, specialized scaffold options can be designed to meet any challenge.

Safway Services is the only scaffold company so dedicated to scaffold training and safety, that we created our own Scaffold Training University. Over 43,000 employees and customers have benefited from this leading edge approach to scaffold safety

### **Services**

#### **Training**

Looking for programs to train your workers in the safe use of scaffolding?

#### **Engineering**

We employ one of the industry's largest in-house staff of engineers and designers to solve the most complex scaffold problems.

## **Labor Services**

Our professional labor crews are locally-based for faster response, especially in emergency situations. Our outstanding safety record is evidence of our commitment to the safety of our employees, customers and the public.

## **Complete Project Management**

As your one-stop supplier of scaffold services, we can manage your scaffold project from start to finish including delivery, erection, dismantling, on-site inventory management and many other specialized services.
