

## KBR Canada Limited

### About Us

With more than 50,000 employees in 45 countries on five continents, KBR is one of the world's premiere engineering, procurement and construction companies. With a proud and distinguished history of more than a century, we have evolved into a prominent part of the energy, petrochemicals, oil sands, refining, power, mining and pulp and paper sectors.

Since becoming an independent company in 2007, KBR has expanded on its position in the growing end-markets it serves. We offer a wide range of services through ten business units: Downstream, Gas Monetization, Infrastructure & Minerals, International Government & Defence, North American Government & Defense, Oil & Gas, Power & Industrial, Services, Technology, and Ventures. Our foundation for the future is based on our continued success within these growing industries.

### Mission, Vision, Values

#### Our Values:

- Uncompromising commitment to Quality, Health, Safety and Environment
- An open relationship with our employees based on mutual trust, respect and success
- Transparency, Accountability and Discipline in our business
- Best in class Risk Awareness
- Integrity in all we do
- Financial Responsibility to our stakeholders

#### Our Mission:

- To safely deliver any project, any time, in any environment for the benefit of our customers, shareholders, employees and the communities we serve.

#### Our Vision:

- KBR's vision is to be the world's premier contractor delivering projects and services to a global marketplace. Our track record has proven that time and again when faced with the task at hand, regardless of the challenges, we deliver the work that is expected of us. To that end, KBR's motto or slogan is 'We Deliver'.

## Services Provided

### *Construction and Construction Management Services*

Our construction personnel are highly trained professionals who are as experienced with debottlenecking facilities as they are on grassroots projects. KBR has extensive bench strength of project managers, engineers, construction managers, technicians and craft labour. Our subject matter experts drive project planning and control systems to reduce risks, deliver high quality projects and uphold KBR's commitment to safety.

### *Turnaround and Maintenance Services*

KBR mobilizes maintenance and turnaround teams around the world. Our ability to quickly deploy our teams helps us reduce production and maintenance costs while increasing operational efficiency for our clients. From complex shutdowns to full service maintenance KBR assigns the talent, experience and systems to deliver the right solution to our clients.

### *Pipe and Steel Fabrication*

KBR specializes in pipe spools, manifolds, pipe sized vessels & stacks, radiant & convection sections of process heaters and steel fabrication. We use the latest in welding technology, material management and quality control processes.

### *Modular Assembly*

KBR executes modular assembly projects and building solutions across Canada. KBR's subject matter experts are involved from concept to completion utilizing leading edge processes and systems.
